Introducing

FRESH

At Fresh, it's all about quality and simplicity. Think handcrafted hot breakfast ciabattas, seasonal salads, bakes and sweet treats, made in-house with care. Our menu is built around classic flavours and great ingredients, perfect for keeping your team fuelled whether it's a morning meeting or an all-day session.

Delicious Food

We're interested in what food can do. Our dishes are put together with impact in mind and designed to provide a perfect balance. We want our guests to love every bite, and finish their meal feeling energised, engaged, and ready for anything.

Wellness

We believe in getting the most out of every day, every break and every meal – physically and mentally. As well as serving nutritious and delicious dishes, it's our mission to help people pause, reflect and connect – and become healthier and happier in the process.

Responsibility

Our focus is two-fold. Behind the scenes, it's about striving to do business in a way that's better for people and the planet. At the table, it's about helping customers make choices that are ethical, more sustainable and socially conscious, and to feel good about it.
